E-solution Finance Service POD

Five integrated use cases • full UI journeys • evidence-led AI • manual QuickBooks accounting

Five use cases and core deliverables

Use case	Primary user	Outputs	QuickBooks handling
01 AR Collections	AR / Finance Admin	Commitments, artifact requests, replies	Manual Updates
02 Bank-to-Invoice reconcillation	Cash / Finance Admin	Allocation proof, reconciliation	Manual updates
03 FP&A Trend Intelligence	Finance Head	Monthly trend + invoice/expense drivers	Read-only; Manual manual
04 Treasury Forecast	Treasury Head	Daily/weekly cash forecast + scenarios	Read-only; bank-verified receipts manual
05 Financial Reporting	Controller / CFO	Monthly reviewed management pack	Read-only

AR Collections

Every conversation attaches to a specific customer and invoice set

1 Open AR queue

Read open balances, age, due date and contact; group overdue invoices by customer.

2 Create response request

Draft itemized email, optionally referencing MSA terms and approved supporting artifacts.

3 Human approves send

Finance checks recipient, invoice amounts, attachments and communication tone.

4 Ingest customer reply

Thread match, sender check, detect commitments, partial schedules, time-sheet requests or disputes.

5 Resolve exceptions

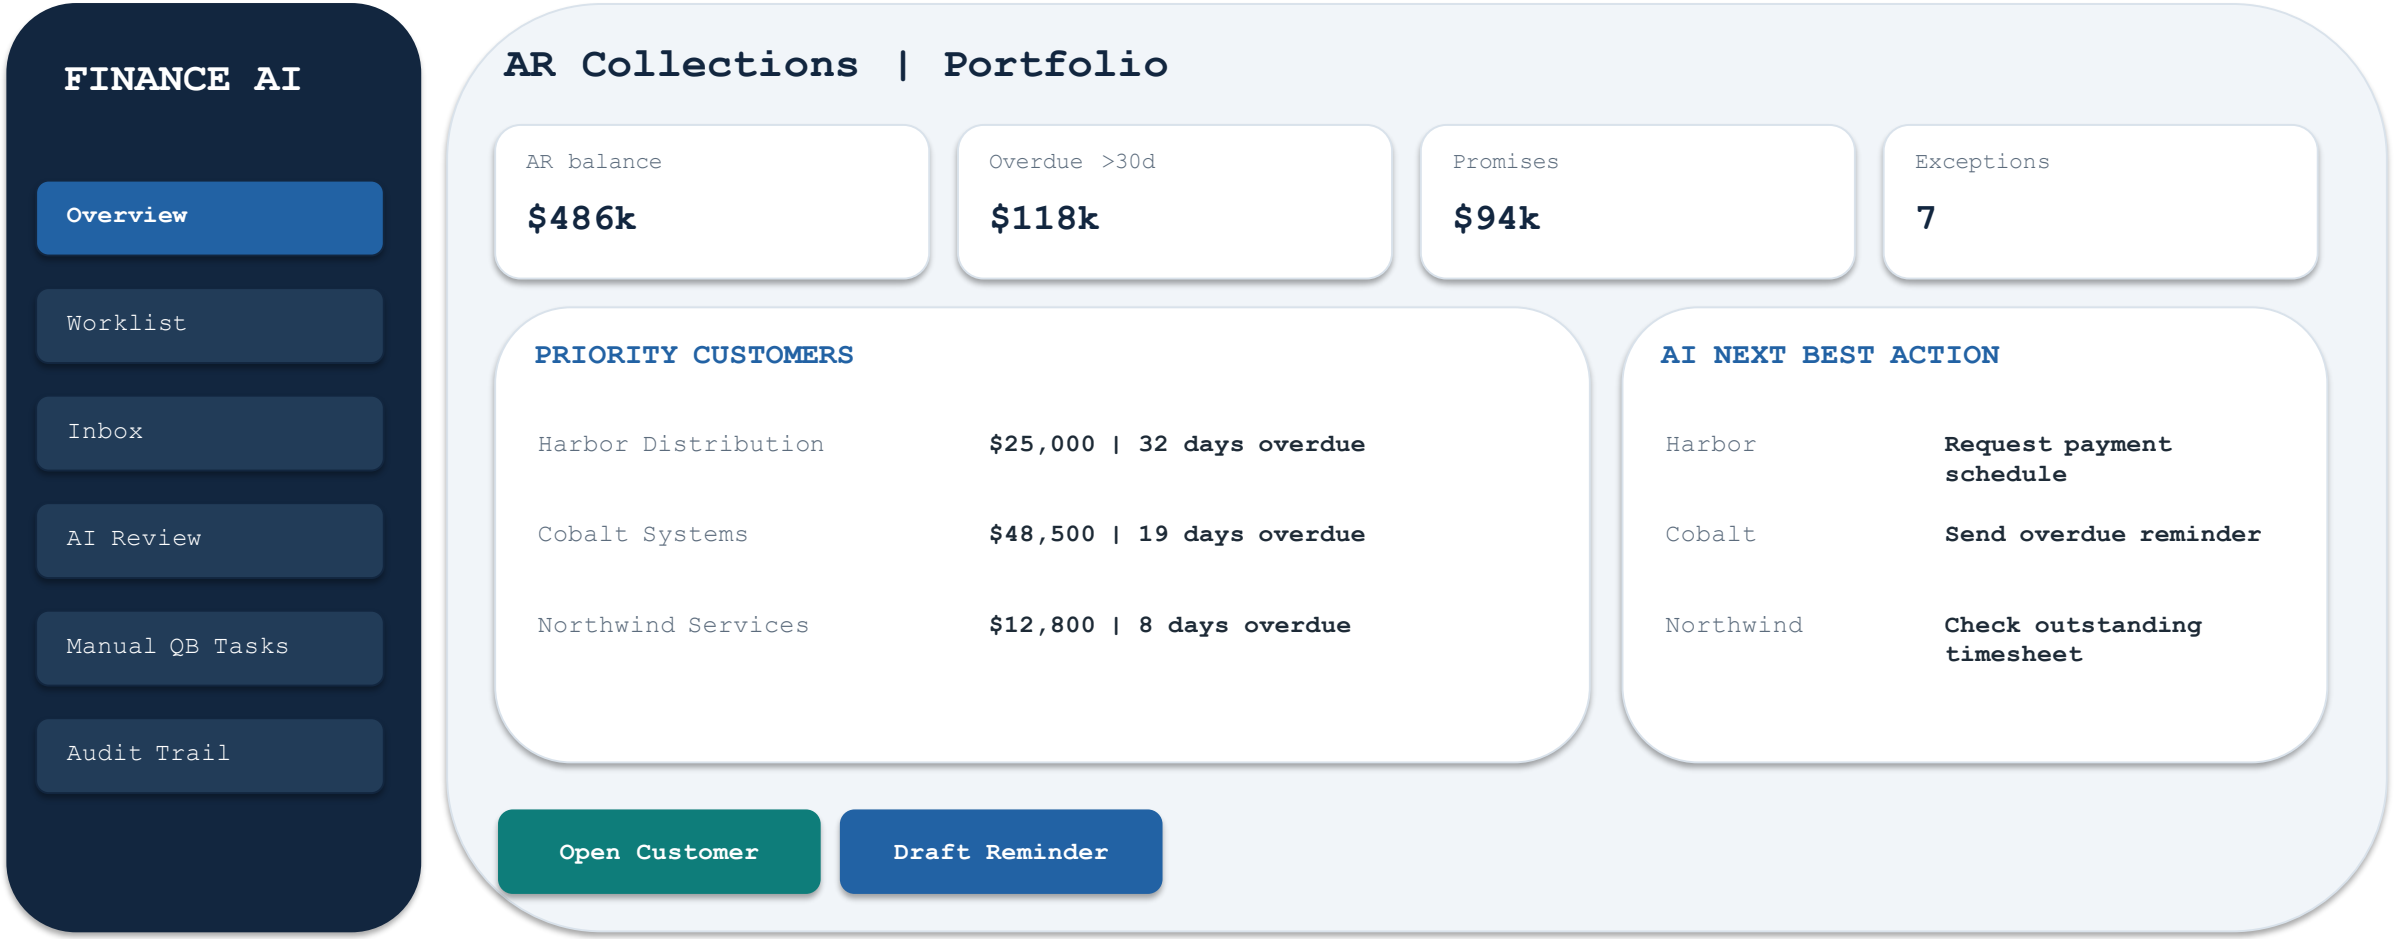

AI recommends documents, questions, dates, escalation and forecast assumptions.

6 Approve and follow through

Admin approves reply, tracks promise, manually books actual payment only when bank-verified.

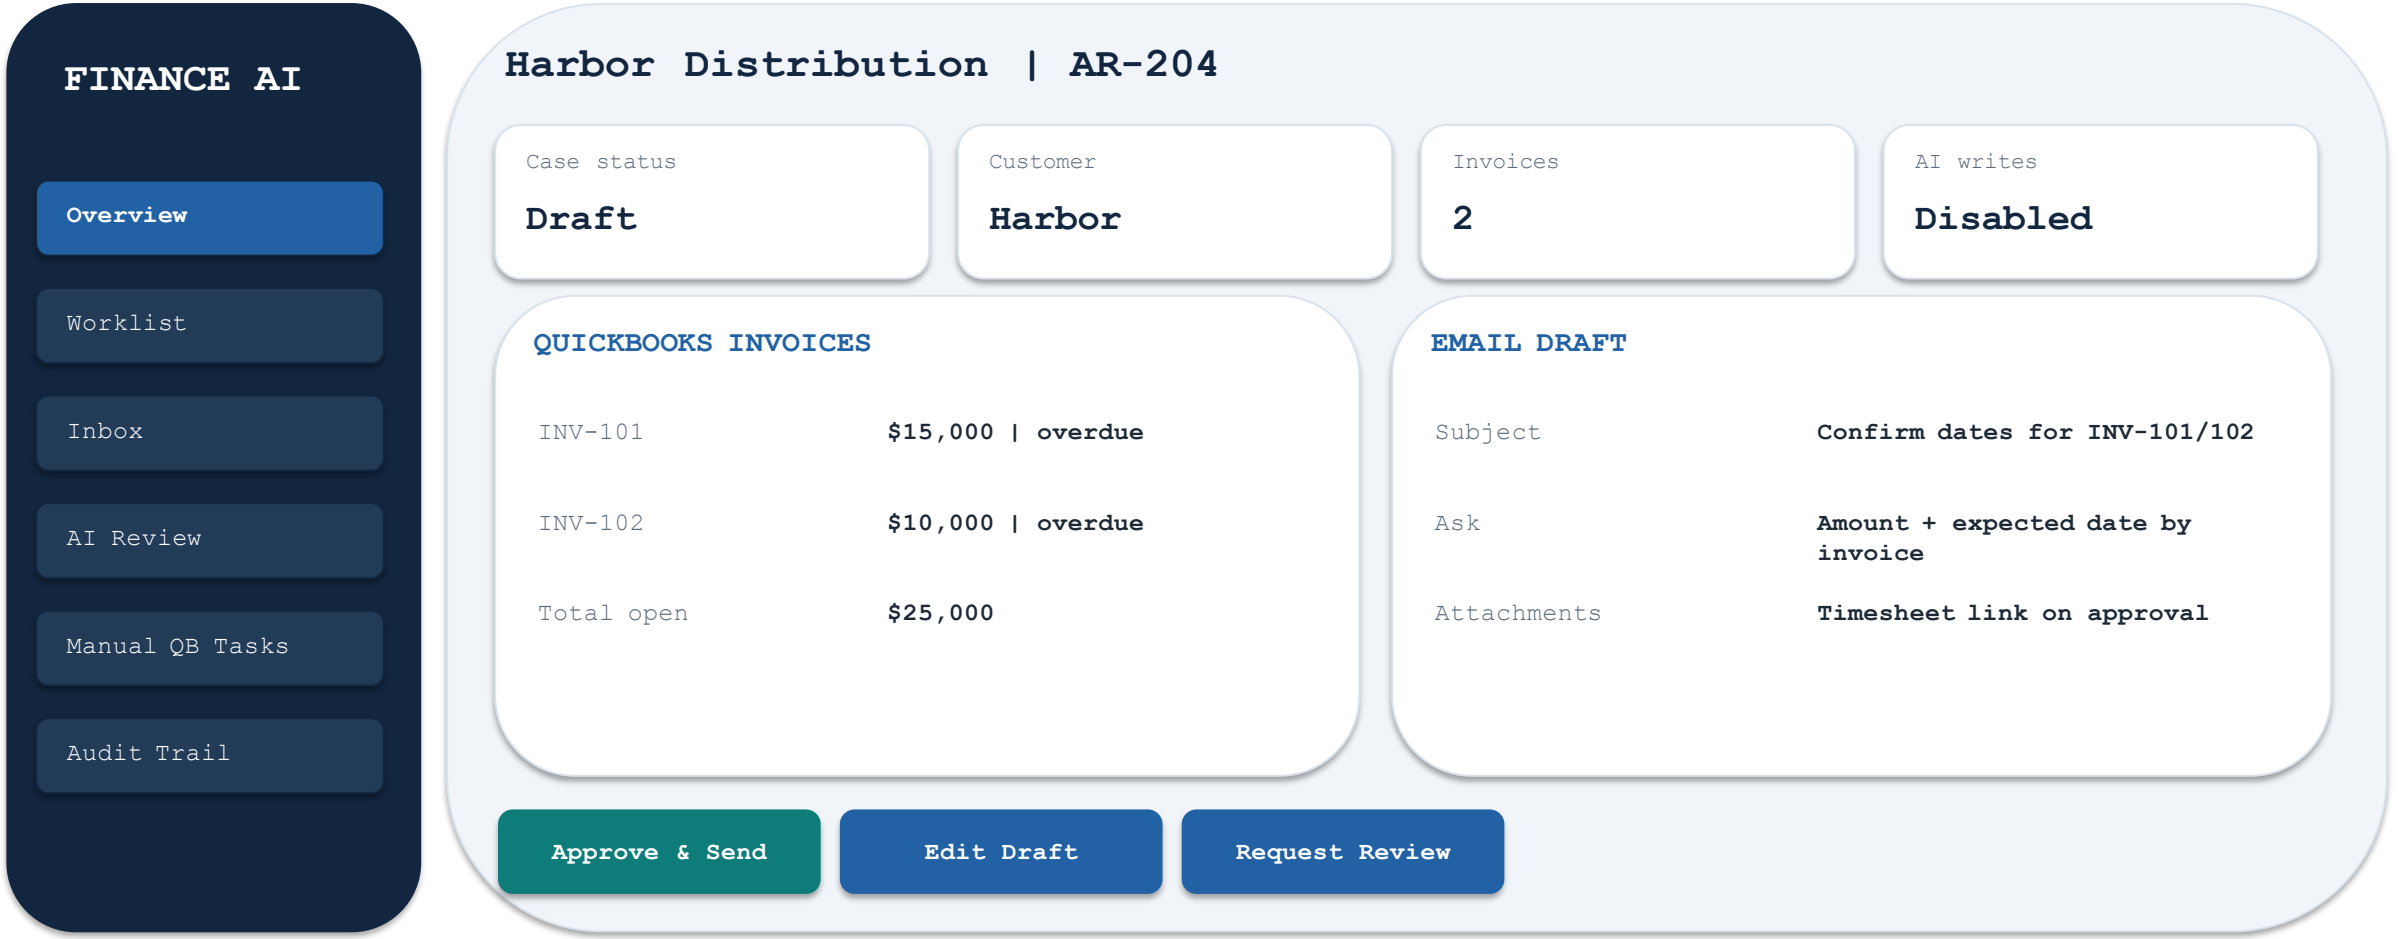

AR Screen 1 | Collections Portfolio

Realistic operational UI: aging buckets, cases and next action

AR Screen 2 | Invoice Case and Email Composer

Finance approves outbound message; no automatic sending

AR | Customer email and four possible replies

Illustrative real-world communication

OUTBOUND EMAIL (FINANCE APPROVES)

Subject: Confirm payment schedule for INV-101 / INV-102

Dear Accounts Payable, our records show INV-101 ($15,000) and INV-102 ($10,000) outstanding. Please confirm the payment amount and expected date for each. If you require signed timesheets or invoice copies, please tell us. Regards, E-Solutions Finance.

POSSIBLE REPLIES

A: Pay both on Nov 12.

B: Please send approved timesheets for INV-101.

C: Pay $6k now and $9k Nov 20 for INV-101.

D: $4k approved and $6k disputed on INV-102.

CLAUDE EXTRACTION

Intent; verified invoice IDs; amounts; dates; artifact type; dispute; missing detail.

FINANCE DECISION

Review each claim; approve artifact; agree follow-up; never treat promise as receipt.

AR Screen 3 | Reply Understanding and Evidence

Show raw email next to structured AI extraction and missing information

BANK to Invoices Reconciliation

Agent prepares evidence and an allocation recommendation

1 Ingest statement

Read bank feed or statement: WIRE-2901, customer, $9,000, bank date and reference.

2 Match likely payer

Search customer, open invoices and existing payments in approved QuickBooks read-only extract.

3 Request allocation

Finance-approved message asks customer which invoices the $9k covers.

4 Parse reply

Identify INV-101 $6k and INV-102 $3k; validate amounts and duplicates.

5 Create manual task

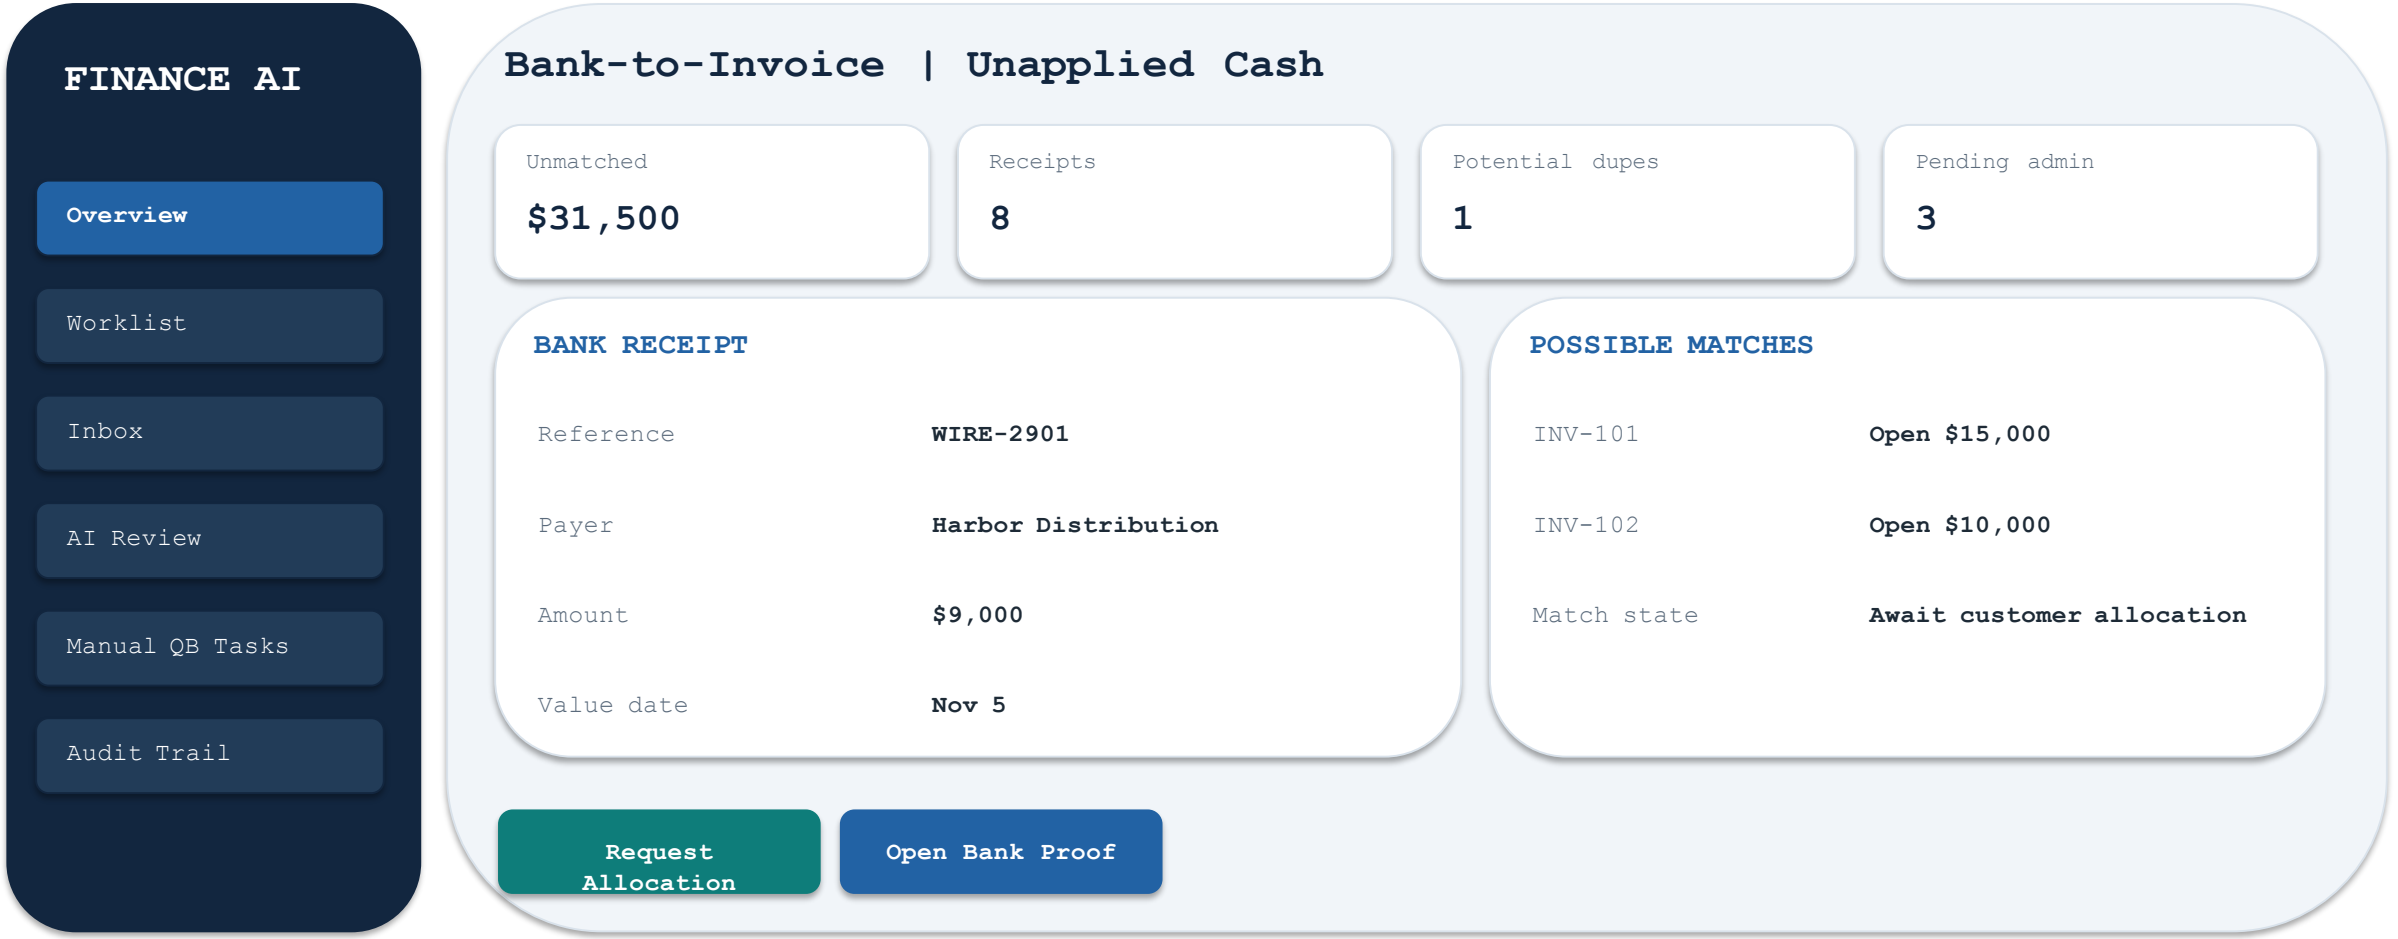

Finance Admin enters/apply receipt manually in QuickBooks; capture transaction ID.

6 Verify and confirm

Refresh reports, check remaining balance and approve customer acknowledgement.

Bank Screen 1 | Unmatched Receipts

Worklist makes unmatched cash obvious

Bank | Allocation request and customer reply

AI never assumes invoice allocation solely from a matching amount

OUTBOUND EMAIL (FINANCE APPROVES)

Subject: Please allocate received WIRE-2901 ($9,000)

Dear Accounts Payable, we received $9,000 by bank transfer on Nov 5. Please identify the invoice numbers and amounts to which this payment relates. We can send invoice copies if needed. Regards, E-Solutions Finance.

POSSIBLE REPLIES

A: Apply $6,000 to INV-101 and $3,000 to INV-102.

B: All $9,000 is for INV-101.

C: Please provide invoice copies.

CLAUDE EXTRACTION

Bank ref; invoice list; numeric allocations; mismatch / uncertain instructions.

FINANCE DECISION

Verify totals and cleared cash; approve manual QB allocation; send confirmation only after posting.

Bank Screen 2 | Allocation Approval and QB Checklist

One approval screen with amounts, proof and receipt reconciliation

WIRE-2901 | Mapping Approval

Bank cleared	Variance	Posting	AI QB writes
Yes	**$0**	**Pending**	**0**

CUSTOMER INSTRUCTIONS

INV-101	**$6,000**
INV-102	**$3,000**
Total	**$9,000 = bank receipt**

POSTING CONTROL

Duplicate check	**No matching recorded payment**
Manual task	**Receive Payment / apply invoices**
Re-read QB	**Required after posting**

Approve Manual Task **Mark Verified**

FP&A | Month-by-month financial Analysis

No email to customers; agent analyzes QuickBooks and presents findings internally

1 Select period

Choose company, entity, dates, accrual vs cash basis and comparative months.

2 Load monthly figures

Read QuickBooks P&L by Month; GL / Transaction Detail by Account; Invoice, Credit Memo, Bill and Expense records.

3 Calculate metrics

Revenue, cost of services, gross profit, operating expenses, operating profit, operating margin.

4 Detect changes

MoM %, absolute variances, trends, seasonality and outlier accounts with comparison baselines.

5 Drill to transactions

Open revenue invoices / credit memos and expense bills / journals to find validated contributors.

6 Review Finance Head pack

Show cited invoice IDs, cost drivers and unanswered questions; Finance Head signs off commentary.

FP&A | Example six-month trend dataset

Illustrative accrual-basis figures ($000) for demonstration; never substitute for actual QuickBooks data

Metric ($000)	Apr	May	Jun	Jul	Aug	Sep
Revenue	420	440	460	455	480	540
Cost of services	252	264	276	282	288	318
Gross profit	168	176	184	173	192	222
Operating expenses	105	108	116	120	125	137
Operating profit	63	68	68	53	67	85
Operating margin	15.0%	15.5%	14.8%	11.6%	14.0%	15.7%

Operating profit = revenue − cost of services − operating expenses; margin = operating profit / revenue.

Treasury | Full operating workflow

A rolling 13-week cash view with bank-verified opening cash and probabilistic receipt schedules

1 Initialize cash position

Import bank balances / cleared receipts; compare to QuickBooks Cash and Reconciliation balances.

2 Load AR

Read open invoices, due dates, payment terms, disputes and approved customer promise records.

3 Communicate on exceptions

Finance-approved payment-date confirmation email for large and uncertain receivables.

4 Capture responses

Claude extracts customer partial-payment amounts, dates and requested timesheets / documents.

5 Build time-phased forecast

Combine approved receipts + planned payroll, vendors, taxes and other approved cash outflows.

6 Review decisions

Model best/base/stress scenarios; alert buffer breaches; Finance Head approves mitigations.

Treasury Screen 1 | 13-Week Cash View

Daily balance, forecast headroom and funding gaps

QB writes	**Disabled**

Draft Confirmation | **Open MSA** | **Customer History**

Treasury | Payment schedule email and customer response

Partial payments affect forecast timing after human approval

OUTBOUND EMAIL (FINANCE APPROVES)

Subject: Confirm expected payment dates: INV-201 and INV-202

Dear Harbor Finance, per the signed Payment terms, please confirm the expected payment amounts and dates for INV-201 ($90,000) and INV-202 ($60,000). Please advise if any supporting approved timesheets are required. Regards, E-Solutions Treasury.

POSSIBLE REPLIES

A: $90k Nov 8 and $60k Nov 15.

B: $50k Nov 8; $40k Nov 22; $60k Nov 25.

C: Send timesheets before payment.

D: INV-202 disputed; settlement TBD.

CLAUDE EXTRACTION

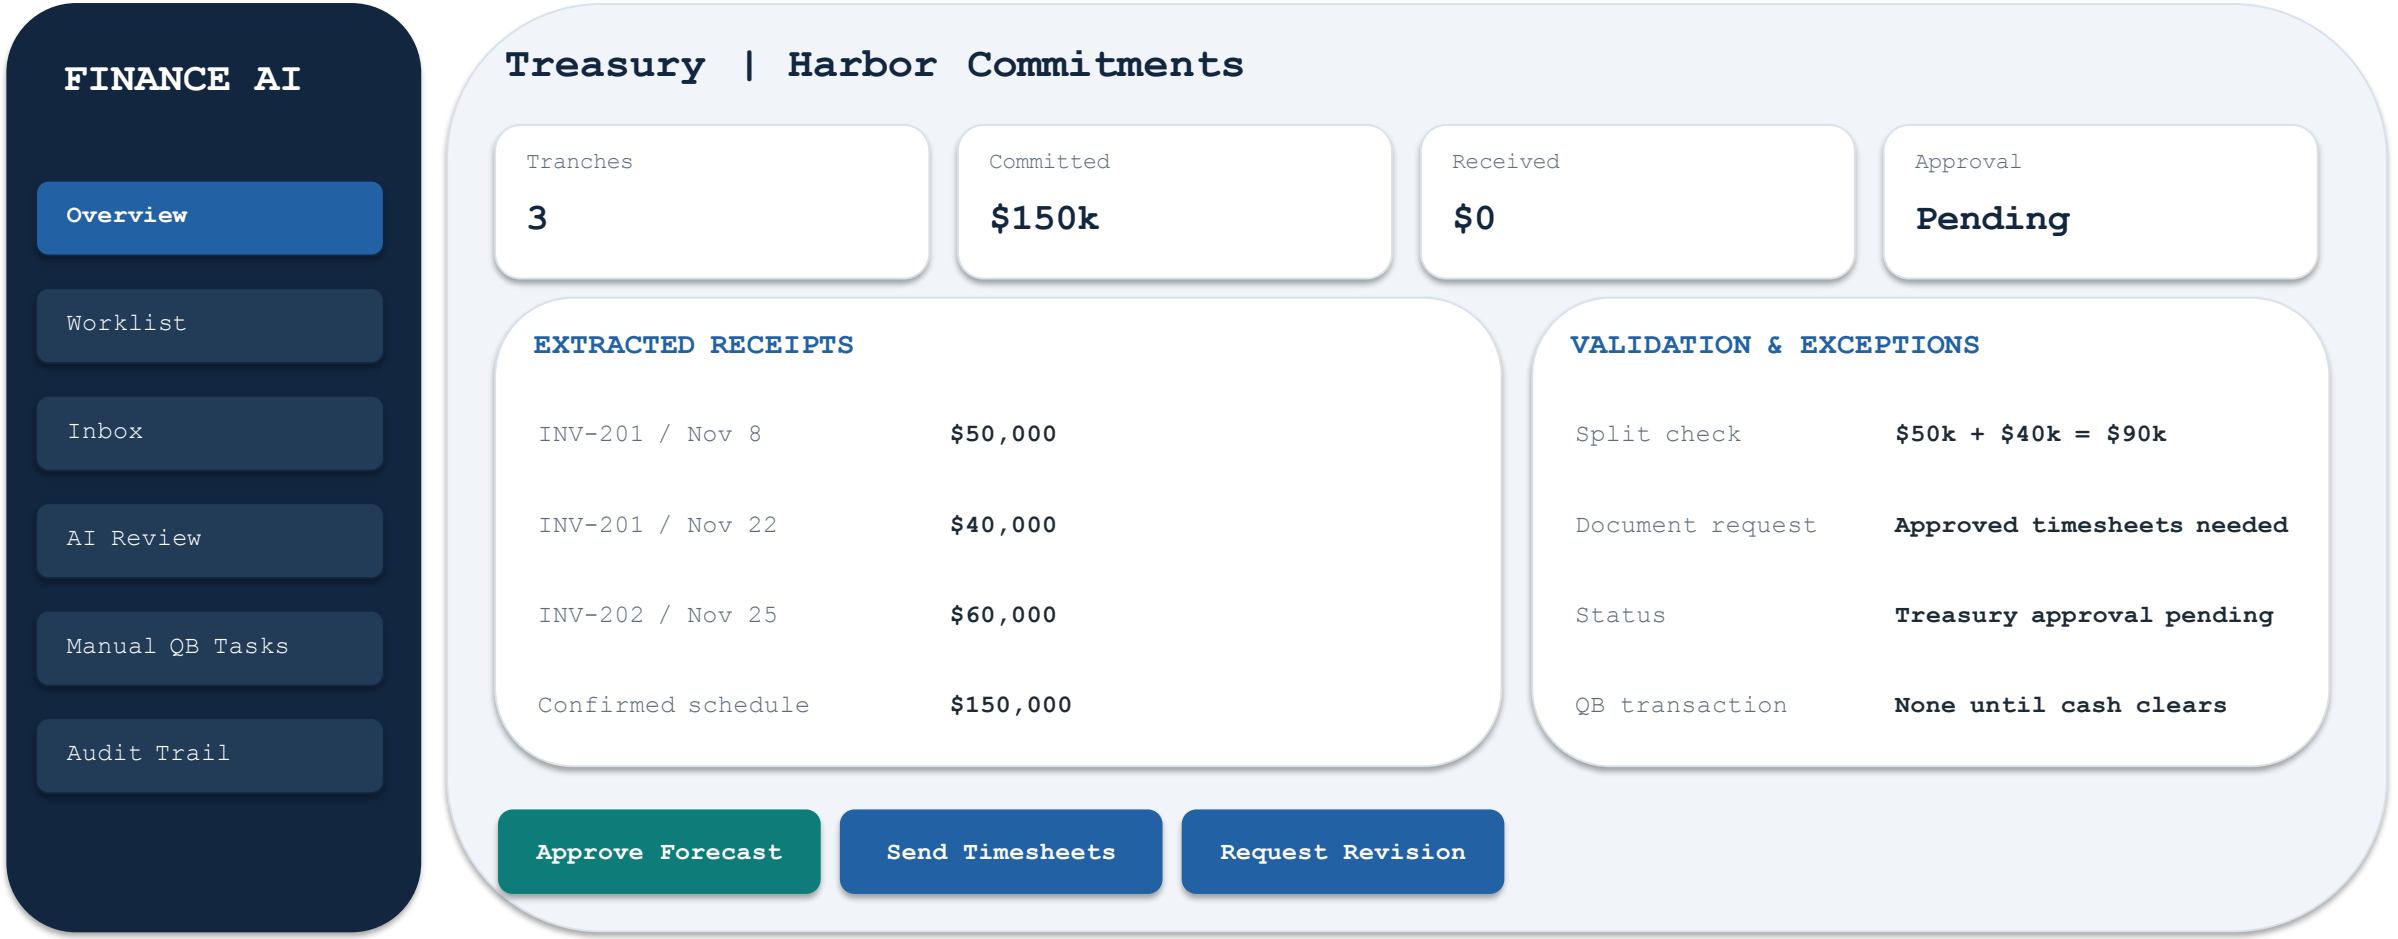

Invoice-level tranches, sum checks, date shifts, missing documents and disputed balances.

FINANCE DECISION

Approve evidence and forecast dates; timesheet workflow; no QB entry on promises.

Treasury Screen 3 | Customer Reply to Forecast Schedule

Customer confirms partial payments; AI proposes three dated receipt lines

Treasury Screen 4 | Cash Flow Analysis

Explain why liquidity falls below management buffer

FINANCE AI

- **Overview**
- Worklist
- Inbox
- AI Review
- Manual QB Tasks
- Audit Trail

Treasury | Cash Bridge

Cash end	Cash buffer	Deficit	At-risk items
$100k	$125k	$25k	2

CASH BRIDGE

Opening cash	$250k
Committed receipts	+$150k
Payroll / supplier outflows	−$300k
Closing cash	$100k

GAP TREATMENT

Policy buffer	$125k
Shortfall	−$25k
Suggestion	Escalate at-risk $60k receipt
Action	Evaluate payment rescheduling

Open Weekly View **Prepare Funding Note**

Treasury Screen 5 | Scenario Comparison

Base, optimistic and stress cash timing driven by confirmed commitments

FINANCE AI

Overview

Worklist

Inbox

AI Review

Manual QB Tasks

Audit Trail

Treasury | Cash Scenarios

Optimistic	Base	Stress	Minimum
$155k	$100k	$45k	$125k

SCENARIO ENDING CASH

Optimistic	$155k | all receipts on time
Base	$100k | current commitments
Stress	$45k | two receipts delayed
Management buffer	$125k

DECISION SUPPORT

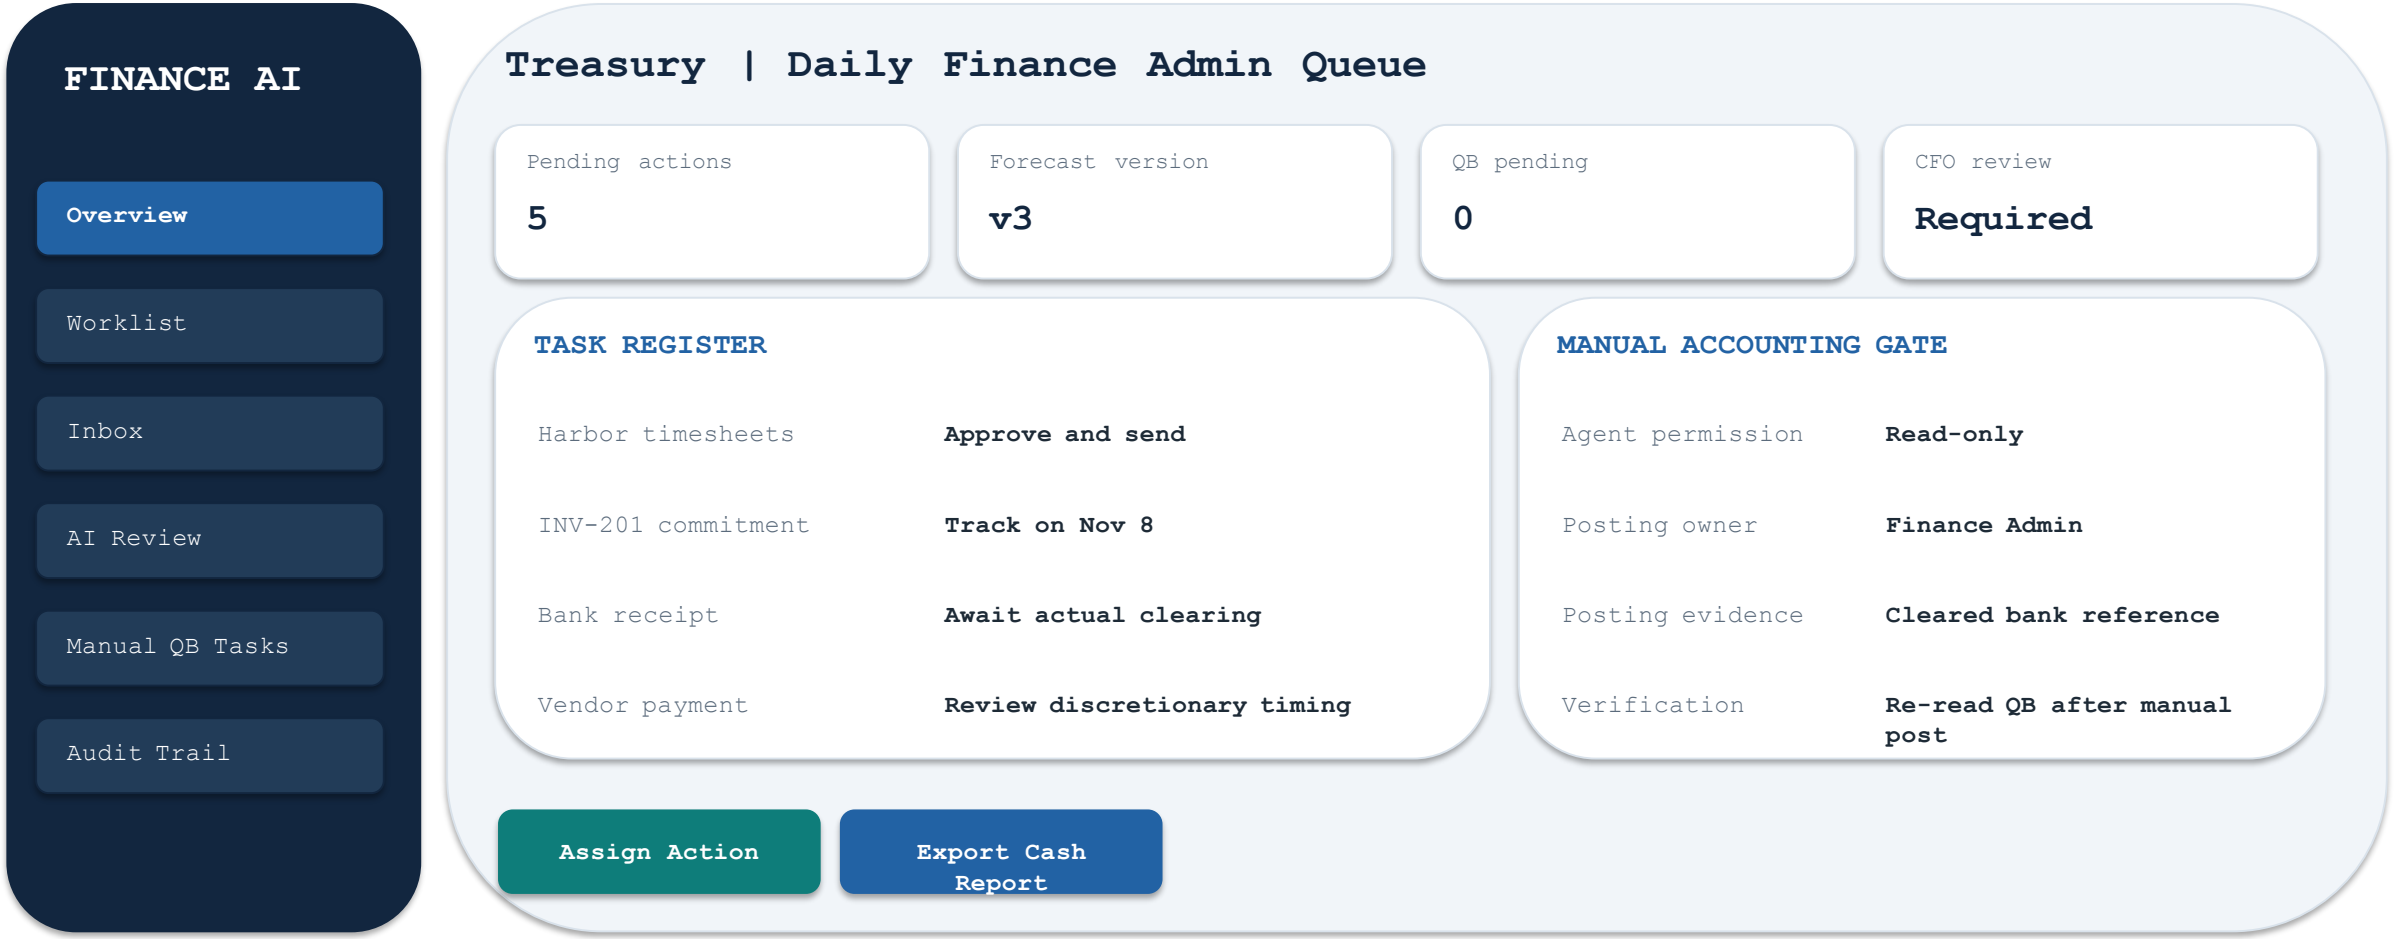

Top uncertainty	Harbor INV-202
Mitigation	Accelerate documentation
Escalation	Treasury Head
QB booking	No scenario postings

Approve Base Case

Compare Dates

Treasury Screen 6 | Action Board and Actual Reconciliation

Manual QuickBooks postings happen only after cleared bank receipts

Reporting | End-to-end review

Internal Finance and CFO workflow without customer outreach

1 Select report period

Choose entity, month, currency, basis and close status.

2 Retrieve reports

Read QuickBooks P&L, Balance Sheet, A/R aging and supporting GL detail.

3 Reconcile totals

Verify current vs prior period, account mapping, and unexplained changes.

4 Draft narrative

AI creates statements, variance commentary and cited supporting evidence.

5 Controller validates

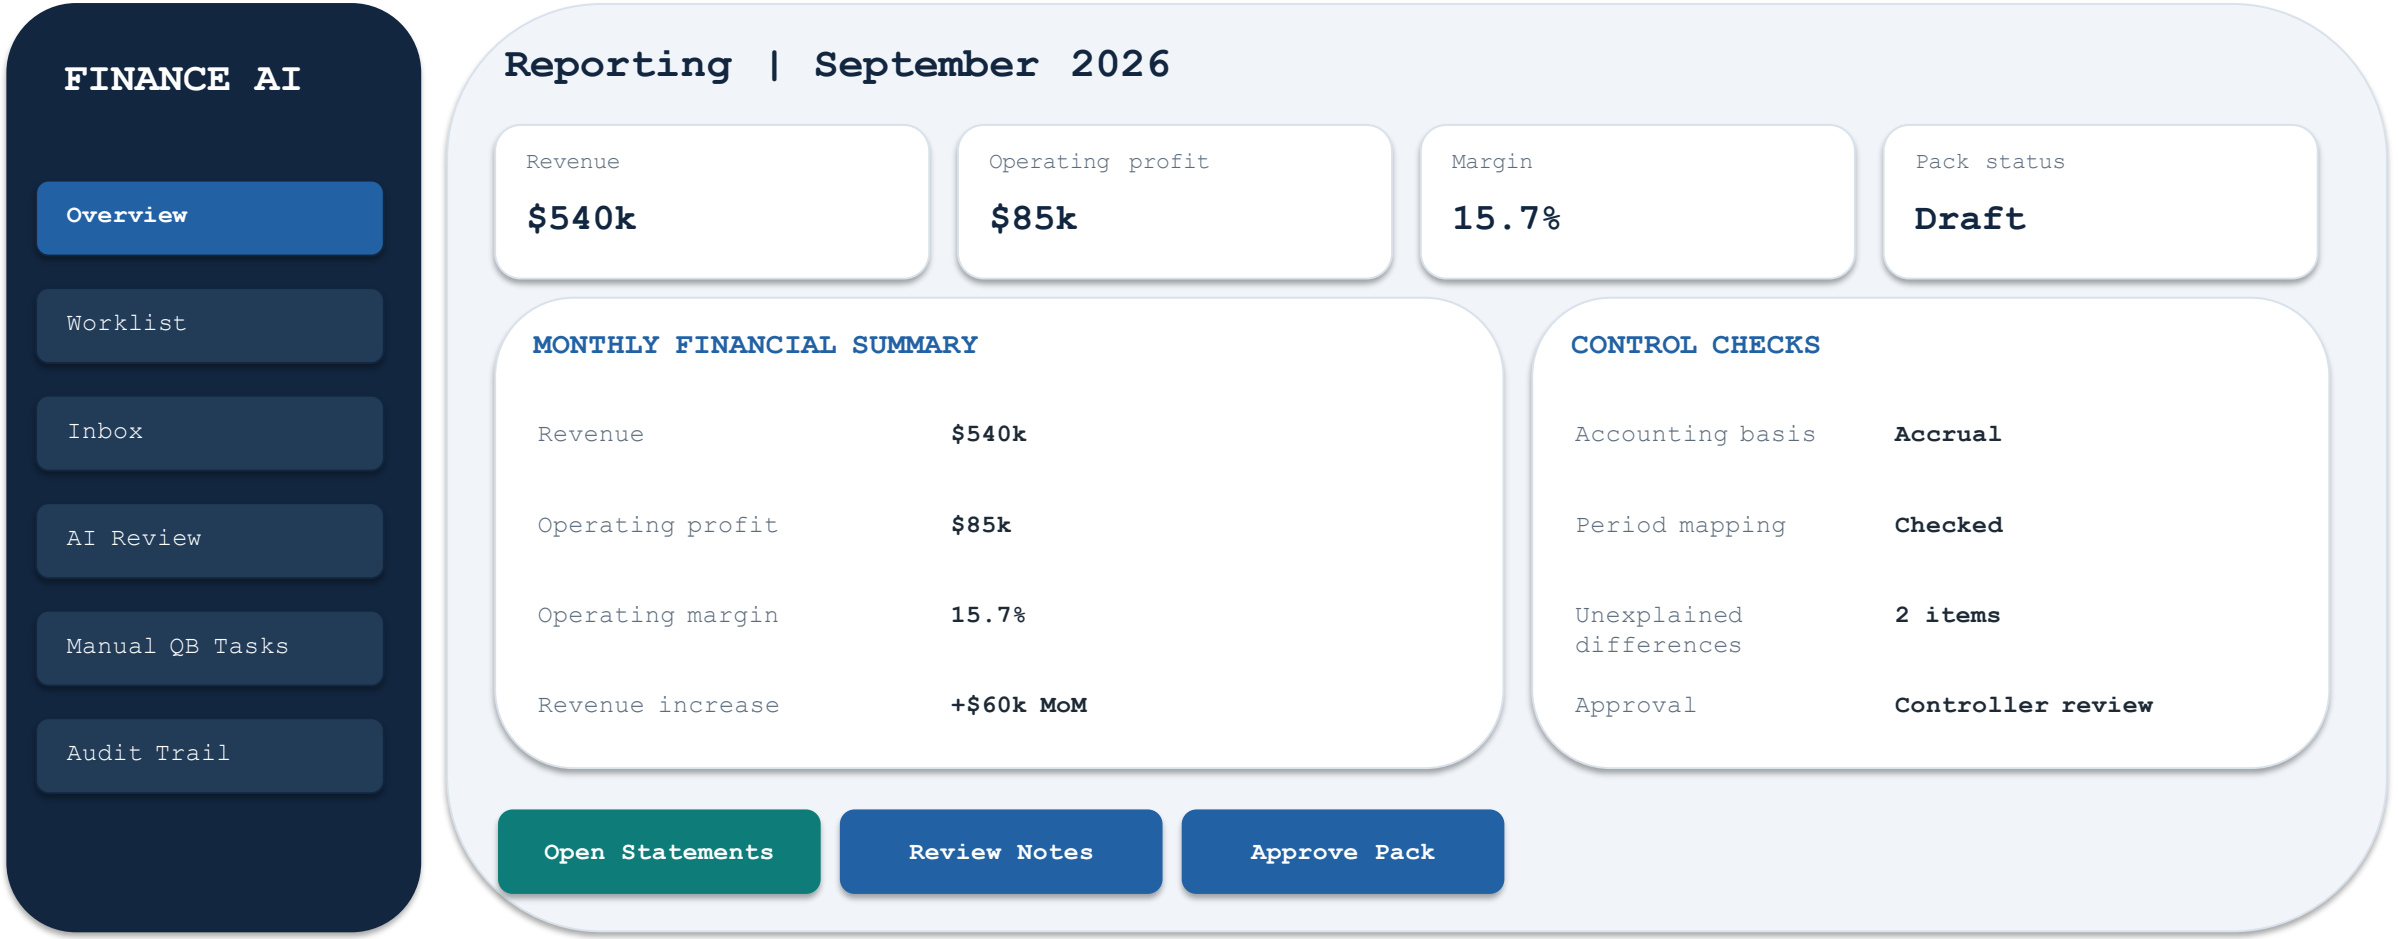

Review unsupported claims; approve requested corrections and manual QB tasks.

6 CFO distributes

Approve final PDF/management pack, export and retain signed audit copy.

Reporting Screen 1 | Monthly Management Pack

One clean executive UI for Controller and CFO

Reporting Screen 2 | Evidence and Commentary Review

Financial statements cross-linked to reconciled source data

Audit, security and acceptance tests

Release gates for an end-to-end demo application

1 No agent write capability

Application credentials do not permit any QuickBooks mutations; role and integration tests confirm.

2 Source-linked explanations

Every financial driver cites report period, customer/vendor, transaction ID and calculation.

3 Ambiguous emails

Unknown date, missing invoice or disputed amount creates a review task, not an assumed commitment.

4 Bank-first posting

Promises never create payments; only cleared receipts enable manual-QB task.

5 Control evidence

Record original email, attachment reference, AI extraction, human approver and audit timestamp.

6 Reconciliation

Every posted change verified against new QuickBooks read-only snapshot before case closure.
